# **207 - MARINE FIREFIGHTING H<sub>2</sub>S SAFETY AWARENESS**

## **COURSE AIM**

To provide participants with an understanding of the hazards associated with H<sub>2</sub>S, and the confidence to enable them to work safely in a potential H<sub>2</sub>S environment.

## **COURSE CONTENT**

By the end of the 4 hour course, participants will be familiar with the following :

- Properties and Hazards of H<sub>2</sub>S
- Biological effects of H<sub>2</sub>S
- H<sub>2</sub>S Gas Monitoring Systems and Alarm Systems
- Contingency Plans - Muster / Safe Haven locations
- Breathing Apparatus / escape breathers familiarisation
- Portable Gas Monitors

## **COMPETENCY**

All participants shall demonstrate their understanding of the hazards and escape methods of an H<sub>2</sub>S environment including use of Breathing Apparatus, via written and / or oral, and practical assessment.

## **COURSE DURATION**

This course is conducted over one day in a classroom environment and using a smoke house as a training prop

## **METHOD OF TRAINING**

Classroom sessions with demonstration and practice donning of BA and / or Escape breathing equipment.
